The story so far...

Comprehensive Monitoring: Current Model

- One integrated BPIR covering all Bologna policy areas
- Standardised indicators across EHEA countries
- Strong comparability and continuity over time

Strengths

- Holistic overview of the EHEA
- Long-term trend analysis

Limitations

- Limited space for complex or qualitative issues
- Risk of superficial treatment of priority themes

Report structure approved by BFUG in Warsaw (February 2025)

- BPIR to align with policy priorities as reflected in working group structures
- Two types of information:
 - a) indicators on policy developments
 - b) narrative text on work supporting implementation in each thematic area

Indicators

- Indicator proposal has been discussed with all working groups/EHEA structures
- Focuses on monitoring of main policy commitments
- Aim to ensure balanced chapters
- Substantial reduction of indicators, and therefore also of information to be collected from BFUG members

Indicators (2)

- Indicators aim to have as much continuity with previous reporting as possible
- Many scorecard indicators - enabling assessment of progress over time
- No big surprises, but some amendments to indicators and a few new indicators

Narrative texts

- Nomination of authors for BFUG Working Structures to be done by 9-10th March, for BFUG in Cyprus
 - ✓ Editor for narrative texts: [Anna-Lena Claes](#)
