# EHEA Qualifications table

The European Higher Education Area (EHEA) qualification table is developed as a tool to support automatic recognition of foreign qualifications in the EHEA. The table provides an easy overview of all qualification types from the EHEA countries that could be considered for automatic recognition and give general access to the next level of study in the other EHEA countries. The qualifications are organized according to the three Bologna cycles and the corresponding EQF levels 5, 6, 7 and 8.
