Total max. 3000 words

To do by November 13

1. Political commitments (~300 words)
2. Supporting implementation across the EHEA (~600 words)
3. Considerations for the future (~300 words)

Total max. 1200 words

Considerations for the future

1

•Strengthening role of TPG A as a **platform for presenting, reviewing and discussing initial and updated self-certification reports**

2

•More **structured procedure or guidelines** should be provided describing process of presenting, publishing, updating self-certification reports

3

•The **Dublin descriptors** (2005) should be reviewed and updated regarding the present priorities, tendencies, terminology and developments in the EHEA countries

Why change Dublin descriptors?

Innovative and revolutionary in 2004,
fit for purpose and sustainable for 22 years

Title	From Dublin descriptors to EHEA descriptors
Ownership	Mentioned as Dublin descriptors twice – WG on QF 2005, Yerevan Comunique 2015 Recommendation on EQF 2008, 2017 – «developed by the Joint Quality Initiative as part of the Bologna Process» Paris Communique – no reference to source
Terminology	Textbooks, competence, professional etc.
Present priorities, tendencies, formulations	No changes since 2004, the same text in the Appendix of Paris Communique 2018
In line with EQF	«Knowledge, skills, responsibility and autonomy» for EQF «???» for EHEA descriptors
